What is Scrip ?

"Scrip" is a Latin word that means anything used instead of money. In our case, scrip means gift cards and certificates. UnitedScrip purchases gift cards in large quantities from national and local retailers. By ordering so many cards, UnitedScrip qualifies for significant discounts that individuals can not.

Your organization purchases gift cards from UnitedScrip at a discount, sells them to your members at face value, and keeps the difference. The profits range from 1.5%-27% of the card value.

For example, a parent is going to shop at Belk's and orders four \$25 Belk's gift cards. Your group deposits the \$100 and orders Belk's from UnitedScrip, paying \$90 for \$100 worth of Belk's gift cards. The parent is happy. They have \$100 in Belk's gift cards to buy things they need. Belk's is happy, they made the sell!

And your group just realized a profit of \$10.00!

Potential Profit with UnitedScrip

If one family's normal spending of \$525 monthly can generate over \$250 yearly, then ten families can generate \$2500! When you consider the number of families in your organization, what is your potential profit? The chart above can give you a glimpse of what can happen when you join with UnitedScrip to "Make Every Purchase Profitable!"
